

DRIVING AGRICULTURE

SPONSORSHIP PROGRAM

Drive Agriculture in Georgia by Becoming a Sponsor Today

Our Driving Agriculture Sponsorship Program was created to give our corporate partners opportunities to foster elementary ag education in our state while helping to minimize the cost to schools by funding ongoing operations.

OUR TOTAL COST

SPONSORSHIPS VISIT FEE

Your sponsorships covers 75% of our operating cost so we can keep our schools' visit fees low.

YES, YOU CAN HELP!

Benefits and pricing are enclosed.

To join in, please email:

Lily Baucom at lrbaucum@gfb.org or

Jennifer Farmer at jmfarmer@gafoundationag.org

What Is the Georgia Ag Experience?

The Georgia Ag Experience is an innovative STEM-based educational program that invites students across Georgia to explore the vast opportunities in agriculture. Our 36-foot mobile classroom showcases Georgia agriculture on the road. We visit Georgia elementary schools and community organizations, targeting students in grades 3 through 5. The Georgia Ag Experience uses technology and digital learning so students can take a deep dive into seven different Georgia agricultural commodities.

Who Is Involved?

The Georgia Ag Experience is a special program of the Georgia Foundation for Agriculture. The target audience is 3rd, 4th and 5th grade Georgia elementary school students and teachers. With the help of our partners, we are bringing ag into classrooms across the state.

The Georgia Ag Experience is provided by The Georgia Foundation for Agriculture. Our mission is to prepare the next generation of Georgia leaders for success in agriculture. Learn about our programs by visiting <http://gafoundationag.org>

Our organization partners with Georgia Farm Bureau county offices across the state to implement our program at the local level.

What Is the Impact?

The mobile classroom accommodates up to 200 school visits annually. During one year, we bring the farm experience directly to 36,000 Georgia elementary students. Students will:

- Gain a better understanding and become an advocate of agriculture
- Learn about technology and the future of farming
- Recognize their role and identify future career opportunities

The positive impact on agriculture in Georgia is already beginning to emerge from student and teacher pre- and post-visit surveys during our first four months on the road.

73% of students expressed that they are now MORE interested in agriculture.

50% of students now understand how complex agriculture is and would explain that to a family member if challenged.

98% of teachers surveyed said they are more likely to incorporate agriculture into their teaching in the future.

Imagine what the future of farming will look like with your support.

Ongoing Programming

Your commitment allows us to keep the schools' visit fees low by covering up to 75% of our operating costs.
